

ZEISS Supreme Prime Lenses

The Supreme Prime lenses from Zeiss offer consistent coverage, color rendering, aperture, size, weight and ergonomics. The entire set of lenses covers full frame (and bigger) sensors with an image circle of 46.2 mm and are color matched across the full range with a fast T-stop of T1.5.

FEATURES INCLUDE:

- Cinematic large-format coverage and high speed
- Excellent performance in low-light environments at T1.5
- Aesthetic focus fall-off and elegant bokeh with smooth transition between in-focus and out-of-focus areas
- Versatile look and gentle sharpness for a crisp, organic look
- Unique ZEISS eXtended Data technology offers lens metadata critical for VFX-intensive productions and workflows on set
- Ultimate flexibility with Interchangeable Mount System enables a quick change from PL-mount to LPL-mount or EF-mount
- Assembled manually and engraved with individually calibrated scales

Available in

25mm, 29mm
35mm, 50mm
85mm, 100mm
T1.5 Prime
