

# Canon EOS C500 MK II Full-Frame Camera

The Cinema EOS C500 Mark II features Canon's high-resolution 5.9K Full Frame CMOS sensor, which offers exceptional low noise and over 15 stops of dynamic range. The sensor's expansive native cinema gamut goes beyond that of current standards, including ITU-R BT.

## FEATURES INCLUDE:

- 5.9K Full Frame CMOS Sensor
- User Changeable Lens Mounts
- Newly developed DIGIC DV 7 Image Processor
- Canon Cinema RAW Light and XF-AVC Recording
- Proxy Recording
- Compatibility with EF and PL Lenses
- Anamorphic Lens Support
- Electronic Image Stabilization
- 4.3" LCD Touch screen Monitor LM-V2
- Dual Pixel CMOS AF with support for Touch AF and Face Detection AF
- Canon Log 2 and 3 Support
- 4 Channel Audio Recording
- Support for Custom User LUTs
